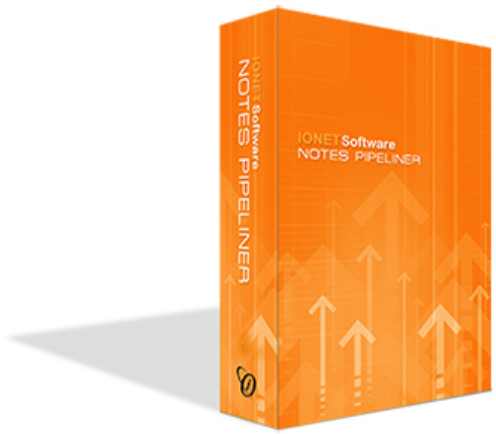
REQUIREMENTS

- ✓ IBM Notes/Domino 8+.



- ❖ Automatic Setup & Operation.
- ❖ Supports IBM Notes® Mail, Custom Applications & IBM Quickr™.
- ❖ Archives or Exports to NSF, XML, HTML, MHT, PDF, PST, Office 365™, Microsoft SharePoint® and Google G Suite.
- ❖ Flexible, extensible and comprehensive functionality.
- ❖ Blends seamlessly into your Notes/Domino environment.
- ❖ Administrator or User Driven.

The IONET Notes Pipeliner is a Notes Archiving, Exporting and Migration solution for IBM Notes Mail, Standard or Bespoke Applications, and IBM Quickr.

The Pipeliner archives or exports Notes Mail, Applications, Quickr, Calendars, Tasks, Contacts & Journals to NSF, XML, HTML, MHT, PDF, PST, Office 365, SharePoint and G Suite/Drive.

The tool can be used to manage your Notes/Domino environment via automated archiving, and/or migrate your Notes environment to other formats and platforms.

Multiple criteria enable Administrators to archive or export data using a comprehensive range of settings, including using Smart Quotas and Archive Rotation/Management.

Perform migrations centrally then allow users to migrate additional data themselves, as well as silently handling locally-based Mail Archives.

Profiles manage multiple Users and Databases according to Directories or Groups, to control your Archive and Export characteristics with a minimum of effort.

Discovery/Compliance searching across the environment is included, along with graphical reporting, multiple language support and a wide range of options.

The IONET Notes Pipeliner handles all of your IBM Notes Archive or Export requirements, now and in the future.
